

Basic Recreational Saltwater Fishing Regulations

This brief summary of regulations governs the taking of saltwater species in Florida State Waters for personal use. It is not applicable to the commercial harvesting of these species. The absence of complete laws, rules and regulations in this summary does not relieve persons from compliance with those laws, rules or regulations. State waters extend to 3 nautical miles on the Atlantic and 9 nautical miles on the Gulf. Federal rules apply beyond state waters. For species that do not have an established bag limit, more than 100 pounds or 2 fish per harvester per day (whichever is greater), is considered commercial quantities. A saltwater products license and commercial vessel registration is required to harvest commercial quantities of unregulated species. It is illegal to sell recreationally harvested fish without compliance with commercial license requirements. **Issue Thirty Two, Jan. 2008**
